**Point No -9 the following reply is to read in place of existing reply to this point.**

The NIT deals with the establishment of a extremely critical ABSL2 facility involving biological safety, biological security, and public safety, in addition to its operations and maintenance. Hence, vendors or contractors well experienced in this area are preferable considering the critical safety aspects in addition to meeting the Quality & technical specification. Therefore, we cannot relax the criteria of prior experience/turnover for the start-ups. However, to facilitate the request, as a very special case, your application can be exempted from Part-A (Technical Pre-Qualification) – Sr No -1 only being a Start-up ( subject to providing documentary evidence of your firm as recognised Startup as per GOI rules ). This will allow such firms to submit Bid and participate in Tender. All other Point as per Part-A , Part-B & other tender evaluation criteria cannot be exempted to any firm. This is in compliance with instruction received from MOF , DoE, PPD dt 20/09/2016.

This reply is same for any other firm having same query regarding exemption on evaluation criteria.
