

“Workshop on Hands-on Animal Experiment Methods, Biology and Ethical Consideration”

03- 06 September, 2024 (NIAB, Hyderabad)

About Workshop

The National Institute of Animal Biotechnology is an Indian autonomous research establishment of the Department of Biotechnology, Ministry of Science and Technology (India). The primary mandate of NIAB is towards developing sustainability and globally competitive livestock for the public and industry through innovative and cutting-edge technology and emphasizing excellence in producing globally competitive livestock products, pharmaceuticals, nutritional products, and other biologicals related to animal health care.

The institute has a well placed state-of-the-art barrier-maintained laboratory animal facility, along with established large animal farms. These facilities are utilized for conducting experiments involving rodents, lagomorphs, and farm animals, all in strict compliance with the guidelines set forth by the Committee for Control and Supervision of Experiments on Animals (CCSEA).

The workshop is specifically designed to provide hands-on experience with various animal experimentation techniques, covering both laboratory and farm animals. The theoretical aspects will be complemented by practical sessions, offering participants a comprehensive understanding of the subject matter.

Patron

Dr. G. Taru Sharma
Director, NIAB

Organizing Secretary
